**Financial Status Reports (FSRs)**

- FSRs are due 90 days after the end of the state fiscal quarter
- Grantees have a 30 day grace period after the FSR Due Date
- Reimbursement of project costs incurred during the reporting period **will be waived** if the FSR is not submitted within 30 days of the FSR due date

---

**Financial Status Reports**

- Grantees can request a deferment for filing an FSR; however, the deferral request must be submitted **on or before** the FSR Due Date
- Deferment Process Overview
  - If approved, FSR must still be submitted in CARS-CGMS with zero expenses
  - Expenses should be included in the subsequent FSR
Financial Status Reports

• Supporting documentation should be in same order as amounts listed on the expenditure report

• Grantee must upload all supporting documentation at the time FSR is submitted

• CPRIT requires grantees to use cash basis accounting when reporting expenses to be reimbursed.

Financial Status Reports

➤ The grantee should provide a summary report of expenses, such as a general ledger (GL), which can be produced directly from an accounting system or itemized on an Excel spreadsheet

➤ The report must contain the following information: expense categories, itemized expenses, description of items, date paid, and amount paid with expense totals by category
Financial Status Reports

- If date paid information cannot be found in the summary report, it should be noted on invoices.
- In addition to the summary report of expenses, a grantee must provide documentation to support expenses reported for each category.
- Make sure payment dates are listed for all transactions.

---

Financial Status Reports

- Report only expenses paid during the current reporting period.
- Payroll is an exception to this requirement.
- Invoices outside of quarter require justification.
- A payment claimed for a period earlier than the current period should be accompanied by a letter or memo explaining the extenuating circumstance that the payment was not claimed in the appropriate period.
Financial Status Reports

- Grantee must summarize and tie all submissions where applicable. Failure to accomplish this could delay reimbursement.

- CPRIT program staff will check totals and will not piece together general ledger total or interpret accounting practices.

- Supporting documentation for each expense must be legible. The documentation must be numbered, cross referenced, and organized by the grantee in a manner that is easily identifiable by CPRIT staff.

- Supporting documentation must be maintained on-site.
FINANCIAL STATUS REPORTS

• Requests for additional documentation require a response within 21 days
  • After 21 days, FSR will be disapproved

• Authorized Signing Official (ASO) must review and confirm accuracy and completeness of supporting documentation and that they are uploaded into CGMS before approving the FSR

FINANCIAL STATUS REPORTS

Timesheets / Records of Actual Time Worked

➢ Except as noted for employees of academic institutions and other governmental entities, time sheets or other records of actual hours worked must:
  • Reflect an after-the-fact distribution of the actual time spent on each activity;
  • Be signed by the employee and supervisor having first-hand knowledge of the activities performed by the employee
Financial Status Reports

• An electronic means to sign timesheets is acceptable provided the grantee can demonstrate and document that only the employee’s actions would result in the identification of the activities to be charged, and that it complies with UGMS (Attachment B, paragraph 11.h)

...time sheets or other records of actual hours worked must:

• Be prepared at least monthly and coincide with one or more pay periods
• Account for the total activity for which employees are compensated by the organization; and
**Financial Status Reports**

...time sheets or other records of actual hours worked must:

- Identify the various programs/cost objectives and time that the employee worked each day on a specific program/cost objective.
- Budget estimates, time studies or other distribution percentages determined before the services are performed do not qualify as support for grant expenses.

---

**Overtime is an allowable expense**

- An overtime premium (rate of pay of more than one-and-a-half times the standard compensation), is **not** allowable except under the following conditions:
  - With the prior written approval of CPRIT;
  - Temporarily, in the case of an emergency or an occasional operational bottleneck;
**Financial Status Reports**

**Continued – Overtime premium exceptions:**
- In performance of tests, laboratory procedures, or similar operations that are continuous in nature and cannot reasonably be interrupted or otherwise completed; or
- When lower overall cost to CPRIT will result

---

**FSR – Personnel / Fringe**

**Common Errors**
- Missing timesheets
- Missing certification of time
- Missing payroll ledger
- Tuition payments – employee is not listed on Personnel Level of Effort (PLOE)
- PLOE not valid for current reporting period
- Missing breakdown of types of fringe
PLOE & Non-Key PLOE

- Effective March 1 – May 31 fiscal quarter, (FSR due August 29) all personnel, including any changes, are required to be reported in CARS-CGMS on the Personnel Level of Effort (PLOE) form
- Non-Key PLOE has been discontinued

PLEASE NOTE:
- When grant moves to closeout status from active status (equivalent to the contract end date), the PLOE cannot be revised in CARS-CGMS, and any expenses related to personnel not listed on the PLOE will not be reimbursed.
**PLOE**

- If you are submitting salary expenses for an employee on the financial status report, show the position name, title, and level of effort on the PLOE prior to submitting for payment.
- Keep PLOEs current (if end date prior to FSR period, submit new PLOE with FSR).
- For No Cost Extensions (NCEs) the PLOE comes in as a zero by default – make sure PLOEs are current and accurate for NCEs.

**Financial Status Reports**

**PLEASE NOTE:**

- For academic institutions, the Supplies and “Other” categories require invoices for any single expenditure equal to or greater than $750. There is no minimum amount for non-profits and for-profits.
- Travel, Contractual, and Equipment categories require 100% documentation – applies to all grantees.

- Travel expense reports must be signed by the traveler and approved by the employee’s supervisor.
- A separate travel expense report should be submitted with all supporting documentation for each trip taken.
FSRs - TRAVEL

- International travel requires prior approval if not listed in approved budget. Grantee must submit change request in advance of travel.
- CPRIT follows TexTravel guidelines for reimbursement of travel: https://fmx.cpa.texas.gov/fmx/travel/textravel/index.php
FSRs - TRAVEL

- Submit copies of all invoices, regardless of amount.
- If travel, must breakdown costs and submit supporting documentation.

FSRs - CONTRACTUAL

- Documentation for grantee contractor travel expenses claimed under Contractual should include the following:

FSRs

Allowable Costs

- All costs charged to a CPRIT grant must meet the general allowability criteria established by the Uniform Grant Management Standards (UGMS)

- Although a cost may meet the allowability criteria established by UGMS, CPRIT may restrict or cap the reimbursement of allowable costs

FSRs

 Allowable Costs

- Any restriction and/or limitation of allowable costs will be specified in the applicable statute, administrative rule, contractual term (including the approved budget), or the request for application

- If the grant contract limits payment of allowable costs, the total allowable cost allocable to a CPRIT grant should still be captured in the general ledger and reported on the FSR
FSRs

**Allowable vs. Unallowable**

- Purchase of equipment, if not initially budgeted in the CPRIT proposal, requires prior approval.
- Academic conferences may be paid for with CPRIT grant funds if they are in the budget.
- In most cases, CPRIT grant awards only pay for two participants to attend the CPRIT Conference. Research Training Awards are exceptions to the two-attendee rule.

**FSRs**

**Allowable vs. Unallowable**

- Invoices paid after the end of a financial quarter are unallowable. These costs should be reported in the following quarter’s financial status report.
- Generally, cost transfers processed after 90 days are unallowable. Cost transfers are allowed to make corrections to bookkeeping errors.
- Clothing purchases such as uniforms, lab coats, boots, etc. necessary to perform the project work are allowable, but they must be listed in the project budget.
FSRs

Allowable vs. Unallowable

- Cell phone charges paid as supplemental payroll are unallowable. Payments directly to a cell phone provider are allowable.
- Unallowable costs should not be recorded in the grantee’s cost center.

**MCC**

- Institutions of Higher Education may use their Federal Indirect Cost Rate to fulfill match requirement
- Institutions of Higher Education **must upload to each grant record** most current indirect cost rate agreement
For Public or Private Institutions of Higher Education ONLY:

- If the grant recipient’s Federally Approved Indirect Cost Rate is greater than or equal to 55% (the 50% matching funds requirement and the 5% CPRIT Indirect Cost Rate), then no further action is required once the appropriate information has been entered in lines "a" through "d" and in the “Enter Certification of Initial Matching Funds Encumbered” field below.

For Public or Private Institutions of Higher Education ONLY:

- If the combined Federally Approved Indirect Cost Rate and the CPRIT Indirect Cost Rate calculated for the Project is less than 55%, then the grant recipient must use the section below to demonstrate that it has expenses, or encumbered funds available not yet expended, that are dedicated to the CPRIT-funded project for the portion of the match requirement not met by the Federally Approved Indirect Cost Rate credit.
MCC

- Must maintain a **separate account** for funds used to meet matching requirement
- Submit documentation of expenditures used to meet annual matching requirement
  - Examples may include the institution's FICR letter, copy of accounting report/documents including general ledgers, etc.
  - Invoices are not required to be submitted but must be maintained onsite

MCC

- In the event that a grantee’s FICR changes **six months or less** following the anniversary of the effective date of the grant contract, the grantee may use the new FICR for the purpose of calculating the grantee’s matching funds credit for the entirety of the grant year
- List of match expenses should be uploaded in ad hoc if indirect cost is not applicable or not sufficient to meet match requirement
To count towards a grantee’s matching funds obligation, the grantee’s expenditure must be direct costs spent on the CPRIT-funded project or on closely related work.

CPRIT considers work to be closely related to the CPRIT project if the work supports, extends, or facilitates the CPRIT project, even if the work is not supported by CPRIT funding.

Allowable Expenses Toward Match

- Any expense that can be claimed for grant reimbursement
- Unrecovered indirect costs up to ten percent (10%) of the grant award amount (in addition to 5% indirect costs claimed for reimbursement) if the grantee has a documented federal indirect cost rate or an indirect cost rate certified by an independent accounting firm (and is not a public/private institution of higher education)
- An employee’s salary amount that exceeds CPRIT’s $200,000 cap for reimbursement based on that employee’s level of effort documented on the PLOE
MCC

Allowable Expenses Toward Match

- Travel expenses that exceed the GSA per diem limit on hotel rates or meals provided that the expense is allowed in the grantee’s documented travel policy
- Airfare costs that exceed coach class airfare provided that the expense is allowed in the grantee’s documented travel policy
- Foreign travel related to CPRIT’s funded project (does not require CPRIT prior approval)

MCC

Allowable Expenses Toward Match

- Taxes that are effectively user fees such as hotel taxes, the gasoline tax, or taxes on airfare

- Professional association fees or dues if the membership is related to the CPRIT-funded project
MCC

If the Grantee fails to expend its matching funds requirement for the year, the deficiency may be carried forward and added to the matching fund requirement for the next project year so long as:

- the deficiency is equal to or less than 20% of the total matching funds required for the same period; and
- the Grantee has not previously had a matching funds deficiency.

Subawardee Contribution Towards Match

Recent Administrative Rule Changes

1. SAD Due Date Change
2. Request for Applications
3. Federal Indirect Cost Rate Change
4. Due Date on Weekend or Federal Holiday*

* Proposed at 8/24/18 OC meeting & currently undergoing public comment
1. SAD Due Date Change

- The amendments change the due date of the Single Audit Determination (SAD) form, which must be submitted annually by grantees.

**Previous Requirement:** SAD form is due 60 days after the anniversary of the contract effective date.

**New Due Date:** SAD form is due 60 days after the grantee's fiscal year end.

- Both §§ 703.13 and 703.21 are amended so that the due date is consistent throughout Chapter 703.

2. Request for Applications

- An amendment to § 701.3(58) clarifies what is included in a Request for Applications.

**A Request for Applications (RFA) includes any associated written instructions provided by CPRIT.**

**An example is “Instructions for Applicants,” which are available on the CPRIT website along with RFAs.**
3. Federal Indirect Cost Rate Change

- Grant Recipients that are public or private institutions of higher education\(^1\) may use their federal indirect cost rate (FICR) as a credit towards their matching funds requirement.
- If their FICR changes, there is a window of time that a grantee may use the new FICR:

  **Current Timeframe**: FICR change less than six months following anniversary of effective date of grant contract.

  **Proposed change**: Six months or less following anniversary of effective date of grant contract.

\(^1\) As defined by Texas Education Code § 61.003

4. Due Date on Weekend or Federal Holiday

- The proposed amendments would allow required grant filings to be submitted the next business day following a due date that falls on a weekend or federal holiday as designated by the U.S. Office of Personnel Management.

  **For example**: If an FSR due date falls on a Saturday, the grantee would have until the following Monday to submit the FSR without being delinquent on the report.

  **This amendment appears in five rule sections (§§ 703.11, 703.13, 703.14, 703.21, and 703.24), but makes the same change in each.**
